Subject: Kaltura Virtual Classroom now available

Good morning everyone,

Yesterday it was announced that Kaltura's new virtual classroom tool, Meeting Experiences (NewRow), is now available for customers to try out until June. It's our small way of helping out since many of you are moving to online-only classes at this time. **The admin must enable NewRow in the KAF/KMS Admin Console if you want it available to users.** Once you turn on and allow in the course media gallery, you'll see the Live Meeting icon in the gallery, like this:

- [Admin settings video](#)

NewRow:

- Meeting/Virtual Classroom up to 100 participants
- Webinar up to 500
- Webcast/Townhall over 500

Video is enabled for all but only 25 show on the screen at any given time. You'll see everyone listed in the participant list to the right.

Reviews and webinars will be scheduled in the coming week. Until then, please let me know if there are any questions and how it goes.

Regards,
Sharon
