Use of innovation rule to develop a competitive program for GTAPP

Innovative Program Rule and the "Mother Rule"

What impact would innovative program have on CAEP accreditation?

What considerations may be given for innovative programs in terms of the mother rule (i.e. Admission requirements)

Could innovative programs start off as pilot programs?

Pre-Service Certification part of the reason the pre-service certificate was started was to protect us from out of state providers

TCSG Education Degrees vs. MOUs - Some Technical colleges want to start education degrees. BOR must approve any Associate Degrees offered by TCSGs. Articulation agreements are the current path, if we are approached regarding degree, send them to the Provost and notify USG.

Online Degree Programs and e-Tuition (and special tuition requests) - audit of cost of education, there is a move (or seems to be) to make all tuition the same.

Computer Science, Online Teaching, and CBE

new degrees that fit into the broader lens of something else.

***Elevator speech - why should someone study your program?

Is there a need for creating something like a Regents Teaching Scholar? Could this help differentiate an exemplary graduate?

*** Could we somehow assess in order to distinguish students for the various competencies that are required for teachers? Fits with development of personal professional development plan.
